With our Embossed Panel, there is essentially no limit to the design possibilities or applications. Almost any shape or feature, convex or concave, can be embossed into the Dri-Design panels to create a distinctive, three dimensional accent.

Sizes:

Please refer to the specific material section of the design guide for the correct size parameters of the material you intend to use.

Embossed

Technical Information:

System Depth - 1 ¼" – 4" nominal, including Tapered and Shadow

Material - Aluminum, VMZINC®, Copper and Stainless Steel

Material Thickness - Varies based on materials

Panel Joints - ½" nominal standard (1/8" – 1" available)

Embossing - Most sizes, shapes and locations. Please speak with a Dri-Design representative about specific requests.

Finish - Available in all Dri-Design finishes

Weight - Varies based on material type

Create a visual “feel” with our Textured Panel System. Each perforated corrugated panel is affixed to a Dri-Design wall panel, and delivered to the job site ready to install. Pick any pattern, choose a finish - we give you unfettered freedom to dream as you wish.

Technical Information:

System Depth - 6”

Material - Aluminum

Material Thickness - .063” and .080”

Perforated Pattern - Any pattern

Panel Joints - 1/8” nominal

Finish - Available in all Dri-Design finishes

Weight - Less than 5 pound per square foot

Sizes:

Please refer to the specific material section of the design guide for the correct parameters of the material you intend to use.
